

sddec18-07: Software-Defined Moving Target Defense

Week 10 Report

April 16 – April 20

Clients: Dr. Benjamin Blakely and Joshua Lyle (Argonne National Laboratory)**Faculty Advisor:** Dr. Hongwei Zhang**Team Members**Andrew Thai — *Project Manager*Connor Ruggles — *Quality Assurance*Emily Anderson — *Delivery Manager*Ryan Lawrence — *Communication Manager*

Weekly Summary and Accomplishments

This week we finished our final presentation and reviewing and finalizing all of our project documentation as well as our website. We created more design diagrams and video demonstrations to show our proof of concept for our design.

Summary of Weekly Client/Advisor Meeting

We presented our final presentation to our clients to summarize all current findings and status and received feedback.

Pending Issues

No pending issues for the rest of the end of the semester.

Plans for Upcoming Week

Update anything we need for the final presentation and documentation based on critiques from our clients and advisors before finishing off the semester.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Andrew Thai	I worked on reviewing and finalizing our documentation as well as creating more demos for our final presentation.	6	62
